## INDEPENDENT AUDITOR'S REPORT

Village Council
Village of Springport

We have audited the accompanying general purpose financial statements of the **Village of Springport** as of and for the year ended February 29, 2004, as listed in the table of contents. These general purpose financial statements are the responsibility of the Village of Springport's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Village of Springport, as of February 29, 2004, and the results of its operations and cash flows of its proprietary fund types and nonexpendable trust funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated June 28, 2004, on our consideration of the Village of Springport's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be read in conjunction with this report in considering the results of our audit.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the Village of Springport, Michigan. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purposes financial statements taken as a whole.

## NOTES TO THE FINANCIAL STATEMENTS FEBRUARY 29, 2004

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

#### 1. Reporting Entity:

Springport Village, formerly Oyer's Corner, was organized in 1882 and is located in the northwest corner of Jackson County. The Village operates under an elected Board of Trustees and Officers and provides services to its more than 700 residents in many areas, including water and sewer operations, community enrichment and development, and human services.

The accounting policies of the Village conform to accounting principles generally accepted in the United States of America. This note describes the more significant accounting policies of the Village.

As required by generally accepted accounting principles, the financial statements of the Village of Springport include its primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. On this basis, accordingly, the financial statements of certain other governmental organizations within the Village, such as the school district, are not included in the financial statements of the Village.

## 2. Measurement Focus, Basis of Accounting, and Basis of Presentation:

The financial records of the Village are organized and operated using funds and account groups. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting separates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The minimum numbers of funds are maintained consistent with legal and managerial requirements.

Account Groups are a reporting device used to account for certain assets and liabilities of governmental funds not directly recorded in those funds.

The Village has the following fund types and account groups:

Governmental funds are used to account for the Village's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they are susceptible to accrual (i.e. when they are "measurable and available"). Measurable means the amount of the transaction can be determined; available means they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The Village considers all revenues available if they are collected within 60 days after year end (90 days is used for property taxes).

Property taxes, state shared revenues, and interest, are considered to be susceptible to accrual by the Village. Expenditure driven (reimbursement type) grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met. Other receipts become measurable and available when the cash is received by the Village, and are recognized as revenue at that time.

## NOTES TO THE FINANCIAL STATEMENTS FEBRUARY 29, 2004

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

## 2. Measurement Focus, Basis of Accounting, and Basis of Presentation: (Continued)

Expenditures are recorded when the related liability is incurred, except for unmatured interest on general long-term debt, which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

The Village's Governmental funds include the following fund types:

The General fund is the Village's primary operating fund. It accounts for all the financial resources of the general government, except those required to be accounted for in another fund.

The *special revenue funds* account for revenue sources that are legally restricted to expenditure for specific purposes (not including expendable trusts or major capital projects).

The capital projects fund is used to account for the acquisition or construction of major capital facilities other than those financed by proprietary fund operations and special assessments.

**Proprietary funds** are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred. The Village applies all applicable FASB pronouncements in accounting and reporting for its proprietary operations. Proprietary funds include the following fund types:

Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business, or where the Council has decided that the determination of revenues earned, costs incurred, and/or net income is necessary for management accountability.

Internal service funds account for operations that provide services to other departments or agencies of the Village, or to other governments, on a cost reimbursement basis. In the case of the Village's internal service fund, the Motor Pool fund, the equipment rental rates determined by the Michigan Department of Transportation are used to recover the costs of purchasing, operating and maintaining vehicles and equipment.

**Fiduciary funds** account for assets held by the Village in a trustee's capacity, or as an agent on behalf of others. Trust funds account for assets held by the Village under the terms of a trust agreement.

Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the cash basis of accounting. These funds are used to account for assets that the Village holds for others in an agency capacity.

Account groups – The general fixed assets account group is used to account for fixed assets not accounted for in the proprietary funds. The general long-term account group is used to account for general long-term debt and certain other liabilities that are not specific liabilities of proprietary or trust funds.

## NOTES TO THE FINANCIAL STATEMENTS FEBRUARY 29, 2004

## NOTE B - <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>: (Continued)

#### 3. Budgets and Budgetary Accounting:

Formal budgetary integration is employed as a management control device during the year for the General Fund, certain Special Revenue Funds, and the Capital Projects Fund. These budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budget amounts included in the financial statements are as originally adopted, or as amended by the appropriate governing board.

#### 4. Investments:

All investments of the Village are carried at cost. For financial statement presentation investments consist of certificates of deposit in excess of 90 days to maturity.

#### 5. Receivables:

The Village of Springport records various receivables, which are listed and described as follows:

- A. Taxes The amount shown in the General Operating Fund represents the Village's portion of delinquent property taxes received within 90 days of year end.
- B. State Shared Revenue The amounts recorded represent state shared revenues allocated to the Village as of February 29 and received within 60 days of year end.
- C. Accounts The amounts recorded as accounts receivable in the Enterprise Fund represents charges for services, which have been billed but not received.

## 6. Fixed Assets:

All fixed assets acquired or constructed for general governmental purposes are reported as expenditures in the fund, which financed the acquisition and are capitalized in the general fixed assets account group. This account group is not a fund. It is concerned only with the measurement of financial position and is not involved with the measurement of results of operations.

Depreciation of all fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the useful estimated lives using the straight-line method. The estimated useful lives are as follows:

Land improvement, water, and waste water costs
Equipment and vehicles

24 to 50 years
7 to 24 years

See Note E for a more detailed presentation of fixed assets.

## NOTES TO THE FINANCIAL STATEMENTS FEBRUARY 29, 2004

## NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

## 7. Reserves and Designations:

Portions of fund equity are segregated for future use, and are therefore not considered available for future appropriation or expenditure. Amounts reserved represent portions of fund equity which are required to be segregated in accordance with Village ordinances or generally accepted accounting principles. Designations of unreserved fund equity in the governmental funds indicate Village management's tentative plans for use of financial resources in a future period.

## 8. <u>Interfund Transactions:</u>

During the course of normal operations the Village has numerous transactions between funds, including expenditures and transfers of resources to provide services. The combined financial statements generally reflect such transactions as operating transfers.

The Internal Service Fund records charges for services to all Village departments and funds as operating revenue. All Village funds record these payments to the Internal Service Fund as operating expenditures or expenses.

## 9. Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that effect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## 10. Total Columns on Combined Statements - Overview:

Total Columns on the Combined Statements - Overview are captioned Memorandum Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

## NOTE B - EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETARY FUNDS:

Public Act #621 of 1978, section 18, (1), as amended, provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the Village's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The approved budgets of the Village for these budgetary funds were adopted to the functional or activity level by the governing board.

## NOTES TO THE FINANCIAL STATEMENTS FEBRUARY 29, 2004

## NOTE B - EXCESS OF EXPENDITURES OVER APPROPRIATIONS IN BUDGETARY FUNDS: (Continued)

During the year ended February 29, 2004, the Village incurred expenditures in certain funds which were in excess of the amounts appropriated, as follows:

FUND	TOTAL OPRIATIONS	OUNT OF NDITURES	AMOUNT IN EXCESS OF APPROPRIATION		
General Fund -				1011	
Village Council	\$ 8,861	\$ 8,902	\$	(41)	
Clerk	15,902	15,972	•	(70)	
Other	40,303	49,657		(9,354)	
Special Revenue Funds -

Insurance	35	505		(470)	
Local Street Fund -					
Repairs and maintenance	1,860	2,021		(161)	
Insurance	35	196		(161)	
Cemetery operations -					
Insurance	30	127		(97)	

## NOTE C - CASH AND CASH EQUIVALENTS:

The Village Treasurer is authorized by state law and a resolution from the Board of Trustees to invest surplus funds as follows:

1. Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a federally insured bank or credit union.

All deposits are in one financial institution located in Michigan. All deposits are in the name of the Village. A summary of deposits by type is as follows:

	CA	CARRYING		BANK	
	A	MOUNT	BA	LANCES	
Insured FDIC - Cash	\$	100,000	\$	100,000	
Uninsured, uncollateralized:

## NOTES TO THE FINANCIAL STATEMENTS FEBRUARY 29, 2004

## NOTE E - CHANGES IN GENERAL FIXED ASSETS: (Continued)

A summary of proprietary fund type fixed assets at February 29, 2004, is as follows:

	ENTERPRI	SE FUNDS	EQUIPMENT INTERNAL	
	WASTE WATER	WATER	SERVICE FUND	DEPRECIABLE LIFE - YEARS
Water and Sewer Mains Equipment and improvements	\$ 2,008,942	\$ 537,698	\$ - 297,225	24 to 50 7 to 40
Total cost Less accumulated depreciation Net carrying amount	2,008,942 (461,025) \$ 1,547,917	537,698 (229,237) \$ 308,461	297,225 (230,435) \$ 66,790	

## NOTE F - CHANGES IN LONG-TERM DEBT:

## WATER AND SEWER ENTERPRISE FUND:

The following is a summary of bond transactions of the Village for the year ended February 29, 2004:

	REVENUE		
	F	BONDS	
Bonds payable at March 1, 2003	\$	800,549	
Bond debt retired	·	(57,137)	
Bonds payable at February 29, 2004	\$	743,412	

## WATER AND SEWER ENTERPRISE FUND:

The bonds payable at February 29, 2004 are comprised of the following individual issues:

1)	\$300,000 Waste Water Disposal System Bonds - Due in annual installments of \$25,000 through November 1, 2009; Interest at 5.9 percent through	
	7.15 percent.	\$ 140,000
2)	\$689,687 Waste Water Disposal System Bonds - Due in annual installments of \$30,000 to \$45,000	
	through April 1, 2020; Interest at 2.5 percent Total	\$ 603,412 743,412

## NOTES TO THE FINANCIAL STATEMENTS FEBRUARY 29, 2004

## NOTE F - CHANGES IN LONG-TERM DEBT: (Continued)

## EQUIPMENT INTERNAL SERVICE FUND:

Capital lease payable at March 1, 2003	\$ 43,078
Lease payments	 (14,531)
Capital lease payable at February 29, 2004	\$ 28,547

The remaining annual requirements to maturity for principal and interest are as follows:

Year Due	Principal			Interest
2004	\$	58,527	\$	5,797
2005		59,161	·	23,199
2006		60,272		20,580
2007		57,827		17,915
2008		57,827		15,319
Thereafter		478,345		93,035
	\$	771,959	\$	175,845

## NOTE G - PROPERTY TAXES:

Real and personal property taxes are levied on each July 1st on the property located in the Village as of the preceding December 31, the lien date. These taxes are due to the Village by the last day of the following September. Real property taxes not paid by this date are considered delinquent, and are sent over to Jackson County for collection. Delinquent real property taxes are paid to the Village by Jackson County, therefore the General Fund reflects as revenue the full amount of real taxes levied during the year. The personal property taxes are reflected as revenues in the year collected.

The Village's operating tax rate is currently 17.6954 mills and is distributed as follows:

General operation	10.8099
Cemetery	0.8243
Sewer - Debt Reduction	6.0612
	17.6954

The taxable value of real and personal property located in the Village was \$8,318,713.

## NOTES TO THE FINANCIAL STATEMENTS FEBRUARY 29, 2004

## NOTE H - SEGMENT INFORMATION FOR ENTERPRISE FUNDS:

The Village maintains the Waste Water and the Water Supply as its only enterprise funds. Segment information for the year ended February 29, 2004 is as follows:

	WASTE WATER	WATER SUPPLY
Operating revenues Depreciation expense Operating income (loss) Net income Property and equipment (Net) Total assets Bonds payable Total equity Net working capital	\$ 120,755 40,895 (7,328) 17,533 1,547,917 1,609,102 743,412 791,447 (73,146)	\$ 121,298 11,092 7,871 7,597 308,461 360,606 - 122,179 (199,284)

#### NOTE I – <u>SIMPLE</u> IRA PLAN:

The Village contributes an amount equal to 2% of employee's wages to a Simple Individual Retirement Plan. This Plan was adopted by the Village in November 1998. For the year ended February 29, 2004 the Village's contribution was \$1,647.

## NOTE J- SUBSEQUENT EVENTS:

The Village has received approval from the United States Department of Agriculture for a grant in the amount of \$2,289,000, and a loan in the amount of \$1,053,000. The proceeds will be used to renew the water system within the Village of Springport. The Village has incurred engineering and other costs related to this project. The total cost incurred to date is \$243,124, payment will be made when the grant monies are received. The receivable and liability for this project have not been accrued as of February 29, 2004 because the net effect on the Water Supply System Enterprise Fund would be zero.

# REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH $GOVERNMENT\ AUDITING\ STANDARDS$

To the Village Council Village of Springport

We have audited the general purpose financial statements of the Village of Springport as of and for the year ended February 29, 2004, and have issued our report thereon dated June 28, 2004. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Compliance

As part of obtaining reasonable assurance about whether the Village of Springport's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Village of Springport's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that we have reported to management of the Village of Springport, in a separate accounting memo.

To the Village Council Village of Springport Page Two

This report is intended solely for the information and use of the audit committee, management, others within the organization, Village and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

ESTATE PLANNING COUNCIL
OF SOUTH CENTRAL MICHIGAN

Village Council Village of Springport

We have audited the general purpose financial statements of Village of Springport for the year ended February 29, 2004, and have issued our report thereon dated June 28, 2004. Professional standards require that we provide you with the following information related to our audit.

## Our responsibility under Generally Accepted Auditing Standards

As stated in our engagement letter dated May 26, 2004, our responsibility, as described by professional standards, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the general purpose financial statements are free of material misstatement and are fairly presented in accordance with accounting principles generally accepted in the United States of America. Because of the concept of reasonable assurance and because we did not perform a detailed examination of all transactions, there is a risk that material errors, fraud, or other illegal acts may exist and not be detected by us.

As part of our audit, we considered the internal control of the Village of Springport. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

### Significant Accounting Policies

Management has the responsibility for selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by Village of Springport are described in Note B to the general purpose financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by Village of Springport during the year that were both significant and unusual, and of which, under professional standards, we are required to inform you, or transactions for which there is a lack of authoritative guidance or consensus.

### **Accounting Estimates**

Accounting estimates are an integral part of the general purpose financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the general purpose financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Village Council Village of Springport Communication of Auditor/Client Responsibilities Page Two

### Significant Audit Adjustments

For purposes of this letter, professional standards define a significant audit adjustment as a proposed correction of the general purpose financial statements that, in our judgment, may not have been detected except through our auditing procedures. These adjustments may include those proposed by us but not recorded by the Village of Springport that could potentially cause future financial statements to be materially misstated, even though we have concluded that such adjustments are not material to the current financial We proposed audit adjustments that could, in our judgment, either individually or in the aggregate, have a significant effect on Village of Springport's financial reporting process.

### Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the general purpose financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

### **Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's general purpose financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

### Issues Discussed Prior to Retention of Independent Auditors

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Village of Springport's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

### Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing our audit. Wedid. however, discover some items which we believe warrant the Council's attention. These items are discussed in the attached memorandum of comments and recommendations. We were very pleased with the cooperation of the administrative staff. The financial accounting showed significant improvement during the current year.

This information is intended solely for the use of the Village Council and management of the Village of Springport and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Markaugh & Cayang MARKOWSKI & COMPANY CPA

June 28, 2004

### VILLAGE OF SPRINGPORT ACCOUNTING MEMORANDUM COMMENTS AND RECOMMENDATIONS FOR THE YEAR ENDED FEBRUARY 29, 2004

### **BUDGETING PROCEDURES**

As disclosed in Note C, the Village spent amounts in excess of the approved budget during the year ended February 29, 2004. This is a violation of Public Act 621 of 1978. The Village should prepare budget amendments as necessary to avoid this situation in the future.

### **SEGREGATION OF DUTIES**

Because of the small size of the Village's administrative staff, proper segregation of duties cannot be accomplished. This is an inherent weakness in the internal controls of the Village of Springport. We recommend that members of the Board review bank reconciliations, water and sewer adjustments, adjustments to the General Ledger, and monthly financial reports for unexpected results that should be investigated.

### **ACCOUNTS RECEIVABLES**

The Village invoices customers for water and sewer services. Currently no reconciliation is being prepared to reconcile the billings and receipts to the General Ledger. A reconciliation should be completed on a monthly basis. We recommend that this procedure be started immediately.

### ANALYTICAL REVIEW

Part of the accounting process is to review revenues and expenditures and to compare these amounts to prior and budgeted figures. The Village accounting personnel should review the general ledger and investigate amounts that are not consistent with the budget or expectations. This procedure also will help in finding misposted items and in the correction of them. The Village should be able to provide support behind all accounts on the balance sheet. Cash should tie out to reconciliations, receivables should tie out to aging reports, etc.

#### CASH ACCOUNTS

Currently, many of the funds share a single bank account. Cash is recorded separately in each fund, but share a single account. This seems to cause the accounting staff difficulties in reconciling the bank accounts between the separate funds and a single total. We recommend that separate accounts be opened for each individual fund. This would help in the cash reconciliation efforts by simplifying the bank reconciliation process.

### INTERFUND TRANSACTIONS

Many of the funds interact with each other, the payroll fund handles the payroll process for each of the funds and then is reimbursed by those funds for their share of the payroll expenditures. Inter-fund receivables are used when funds interact. When a receivable is set up in one fund, it must be accompanied by a payable in another fund. This is not being done on a consistent basis within the Village. We recommend that efforts be made to make sure that separate funds mirror each other when inter-fund transactions take place. The interfund receivables should be reconciled on a monthly basis to ensure proper inter-fund postings.

### TAXES RECEIVABLES

The Village levies taxes on property. The Village needs to reconcile amounts collected to correct postings of revenues and receivables in the general ledger. The financial records need to reflect the proper receivable balances in each fund that collect property taxes. The general ledger should be reconciled to the tax collection software on an ongoing basis.

### VILLAGE OF SPRINGPORT ACCOUNTING MEMORANDUM COMMENTS AND RECOMMENDATIONS FOR THE YEAR ENDED FEBRUARY 29, 2004

### PAYROLL TAX REPORTING

During our audit, we found that the incorrect amounts were being remitted to the proper government agency. We discussed these findings with the accounting department to rectify this situation. We recommend that close attention be paid to the amounts being remitted of payroll tax amounts.
